Encourages hopes to bloom through a well balanced mind and spirit.

### Active Student Life

A vibrant campus buzzing with several student activities, outstanding placement record over the years has been consistent.

### World-Class Sports Infrastructure

20+ Sports facilities available on campus for students.

### International Linkages

Through student exchange and immersion programmes with 17 countries.

# MCA Programme

## Two Year Master of Computer Applications (MCA) Programme Batch (2026 - 2028)

Four Semester Integrated Programme with compulsory internship and option to study abroad during semester III / IV.

### Objective

#### Programme:

To prepare students for a career in Information Technology, Analytics and its allied industry by providing them with state-of-the-art facilities and upgraded curriculum.

#### Department - Data Science & Technology:

With data being recognised as the new oil for an organisation, the area: Data Science and Technology (DST) intends to equip the students with the concepts that will help to make sense of data; to apply various communications, statistics, human behavioural and cognitive models along with information technology and analytical tools in several areas or domains.

### Pedagogy

Workshops

Class Discussion

Field Visits

Guest lectures

Presentations

Electives Offered

International Immersions

Live Projects

Chalk & Talk Online.

Simulations

## Classification of MCA Courses

### Technology Courses

- | Core Java
- | Data Structure using Python
- | Database Applications
- | Web Technology – I
- | Core Java Lab
- | Data Structure using Python Lab
- | Database Applications Lab
- | Web Technology-I Lab
- | Advanced Java
- | Software Engineering and Quality Assurance
- | Advanced Java Lab
- | Mobile Application Development Lab
- | Software Engineering and Quality Assurance Lab
- | Advanced Communication Technologies
- | DevOps
- | Web Technology-II
- | Computer Vision
- | Cloud Computing & IoT
- | Cyber Security & Blockchain Technology
- | Design Thinking & User Experience Design Lab
- | Deep Learning Lab
- | Natural Language Processing Lab

### Analytics Courses

- | Business Statistics
- | Business Intelligence
- | Machine Learning
- | Business Intelligence Lab
- | Machine Learning Lab
- | Web & Social Media Analytics
- | Big Data Analytics (Using Hadoop Framework)
- | Big Data Analytics Lab

### TECNO - Management Courses

- | Digital Transformation
- | Sustainability
- | Green Technology & Computing
- | Entrepreneurship Management
- | Fundamentals of Finance
- | Human Behavior
- | Economics
- | Environmental Issues and Ethics
- | Design Thinking & User Experience Design Lab

## Beyond Academics

### First Aid Workshop

A First Aid Workshop was conducted for MCA students as part of the institute's social outreach initiative in collaboration with a Somaiya hospital. The workshop provided practical training on basic emergency response techniques, including CPR, handling injuries, and immediate medical assistance during critical situations. Healthcare professionals demonstrated real-life scenarios to enhance students' awareness and preparedness in emergency conditions. The activity helped students develop social responsibility, safety awareness, and essential life-saving skills beyond academics.

### IoT Workshop

A workshop on IoT was organized for MCA students, focusing on the applications and future scope of emerging technologies. The session provided valuable insights into the integration of IoT with AI and Data Science, helping students understand real-world technological applications from an interdisciplinary perspective. Through engaging hands-on demonstrations and sensor-based programming activities, students gained practical exposure to IoT architecture, security challenges, and smart system development. The program also motivated students to explore IoT-based projects, internships, case studies, and career opportunities in the evolving technology landscape.

### Master Class

The DST area curated a diverse array of master classes. These classes covered various domains including:

Design Thinking & user experience design	Big Data analytics	Industry applications of database systems
Python programming	Communication and conversational skills	Software Testing
Deep learning	Etiquette	Tech Interview Preparation
Machine Learning		

### Extra Curricular

K J Somaiya Institute of Management organized ICON, its annual technical festival to promote innovation, teamwork, and healthy competition among students. The event encouraged students showcasing their innovative projects and prototypes. More than 150 participants from different colleges took part in various technical, gaming, and sports events conducted during the fest.

## Student Testimonials

**Shreya Dhoke**  
MCA Batch (2024 -2026)

My time at K J Somaiya Institute of Management has been less about just completing a degree and more about building a mindset suited for the tech industry. The programme consistently pushed me to think practically, approach problems logically, and adapt to new technologies through hands-on work and continuous learning.

Working on projects and collaborating with peers gave me exposure to real-world scenarios, where I learned how to manage challenges, communicate ideas effectively, and work as part of a team. These experiences helped me grow beyond technical knowledge and develop a more well-rounded perspective.

The faculty played an important role throughout this journey by being approachable and supportive, always encouraging deeper understanding rather than surface-level learning. Their guidance helped me stay focused and motivated.

Overall, KJSIM has helped me become more confident, independent, and industry-ready, giving me the clarity and skills needed to move forward in my career.

My journey at K J Somaiya Institute of Management has been a transformative experience, both academically and professionally. The programme provided me with an ideal platform to expand my perspective into management and advanced computing.

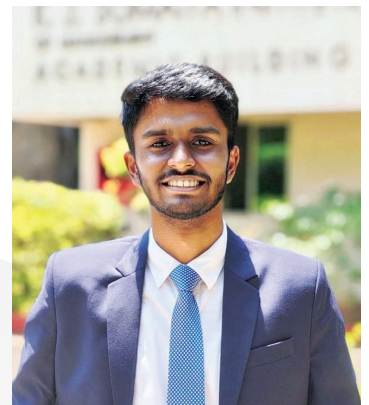

The syllabus is thoughtfully designed, balancing theoretical foundations with practical implementation. Its strong emphasis on real-world applications through projects, case studies, and research-driven learning has helped bridge the gap between core technical knowledge and industry expectations. Each semester aligns with evolving industry standards, ensuring relevant and future-ready skills.

Throughout the programme, I gained exposure to modern Software Development practices, Generative AI, Large Language Models, Machine Learning, Deep Learning, and advanced Data Analytics, strengthening my technical expertise and research orientation. Participation in international conferences and technical competitions enhanced my problem-solving abilities and professional network.

The programme also integrates structured placement preparation, including aptitude and technical training which ensures interview readiness, and soft skills development, significantly improving my confidence and employability.

The faculty have been instrumental in this journey, being highly approachable, supportive, and passionate about teaching. Their strong subject knowledge, combined with continuous mentorship and practical insights, has encouraged critical thinking and deeper understanding beyond the syllabus.

Overall, the programme has equipped me with the knowledge, skills, and exposure needed to confidently take on challenges in the evolving tech industry
