K J Somaiya Institute of Management

Nestled in the beautifully landscaped campus of Somaiya Vidyavihar University, in the heart of India's commercial capital, K J Somaiya Institute of Management serves as a perfect crucible for student transformation. KJSIM believes in enabling transformation journeys of individuals to value-based & purpose-driven leaders for building a better world.

KJSIM holds the coveted AACSB accreditation and has been ranked 52nd by QS World Rankings. With a razor-sharp goal of creating 'industry-ready graduates', a cornerstone of KJSIM's strength lies in its extensive industry collaborations and a 16,000+ global alumni base, affording students opportunities such as guest speaker sessions, summer internships, capstone projects, and mentorship from industry experts that seamlessly align with the ever-evolving industry landscape.

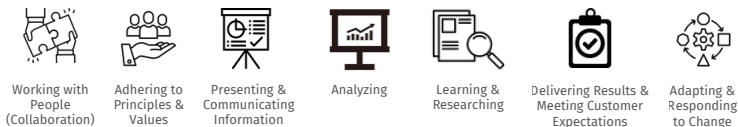

KJSIM is led by Director & Dean, Raman Ramachandran, PhD, former Chairman and Managing Director of BASF India, who is a committed proponent of bridging the gap between industry expectations and graduate outcomes.

Parivartan

Parivartan is KJSIM's flagship competency-based framework. It was conceptualised in response to the question: Is an MBA in its current form enough? There is a perception gap between industry and academia regarding the skills of new graduates. The developed framework aims to bridge this gap, provide holistic development for students that goes beyond an ROI-based mindset, and inspire them to be value-based, purpose-driven leaders. Through Parivartan, students can take charge and kick-start their personalised transformation journey. It is built on two foundational pillars:

Nurture Potential (NP)

Competency assessment is the foundation of NP. Personality and cognitive ability are established indicators of innate potential with high predictive validity, i.e., both are good predictors of future job performance. It also gives a student insight into their strengths and areas of development. The core competencies below were finalised based on insights from progressive organisations and thought leaders such as McKinsey, Deloitte, NASSCOM and GMAC.

Student Progression Index (SPI)

SPI recognises that much of a student's transformation happens beyond the classroom. It is a composite score that considers the following six parameters, each with its corresponding weight.

Illustrious Alumni

Name	Batch	Designation	Organisation
Sunil Kumar	1985	Advisor	PanApps
Shyam Motwani	1986	EVP & Business Head	Godrej & Boyce
